- No trespassing
- Allowed one (1) guest only
- Camp in designated spot
- No target shooting
- If you wound an animal the hunt is over
- No smoking or open flame except at camp

Grass Valley/Clark Canyon CWMU Description

The Grass Valley - Clark Canyon-Moose CWMU lies east of Echo Reservoir. Although it is continuous, Chalk Creek cuts the Unit into a west and east "sub-unit." On the west area the high point is around 7600 feet. The ridge line drops in a southwest direction too the shore of Echo Reservoir at about **5600 feet**. To the north the Unit drops down into Echo Canyon, about 5800 feet before rising again to 7200 feet. Grass Valley Canyon cuts this west area and ranges from 5600 feet to 6400 feet. Then rises up to **7800 feet** above Chappell Lake before dropping down again to Chalk Creek at 6000 feet. The east area is quite long and narrow with high point around 7600 feet in the north and 7700 feet in the south. The Grass Valley - Clark Canyon-Moose CWMU's east area extends into Echo Canyon at 6000 feet and the south extends to 7200 feet.

Inter-Mountain Basins Montane **Sagebrush Steppe** (62) is the dominant land cover on the Grass Valley - Clark Canyon-Moose Cooperative Wildlife Management Unit (CWMU). Closely behind and almost equal with the Sagebrush Steppe is Rocky Mountain **Gambel Oak-Mixed Montane Shrubland** (41). There are a number of areas particularly in the north part of the Unit that have areas of Rocky Mountain **Aspen Forest and Woodland** (22). To a lesser extent there are patches of Colorado Plateau **Pinyon-Juniper Woodland** (36) and Inter-Mountain Basins **Big Sagebrush Shrubland** (48). There are also a number of large patches of **Agriculture** (114) closer to riparian areas.
